

B.E.P.Q. 493, 6th Revision

Effective June 11, 1948

UNITED STATES DEPARTMENT OF AGRICULTURE  
AGRICULTURAL RESEARCH ADMINISTRATION  
BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

REVOCATION OF ADMINISTRATIVE INSTRUCTIONS RELIEVING REQUIREMENTS  
OF PINK BOLLWORM QUARANTINE REGULATIONS

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the second proviso of the Pink Bollworm Quarantine No. 52 (7 CFR 1947 Supp. 301.52), the administrative instructions (7 CFR 1945 Supp. 301.52-4b; B.E.P.Q. 493, 5th Revision) which presently relieve the requirement of § 301.52-4 of the regulations supplemental to the pink bollworm quarantine (7 CFR 1947 Supp. 301.52-4) by authorizing the issuance of certificates for the interstate movement of baled cotton lint without treatment, from certain designated counties in New Mexico and Texas, when the lint has been produced in an authorized gin and subsequently protected from contamination, are hereby revoked, effective June 11, 1948.

This revocation supplements a revision of the pink bollworm quarantine and regulations to become effective June 11, 1948. It is desirable that this revocation become effective on the same date. Moreover recent intensification of pink bollworm infestation in said counties makes it necessary to reimpose treatment requirements promptly. Therefore in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)), good cause is found for making the effective date of the revocation less than 30 days after publication hereof in the Federal Register.

(Sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 1940 ed., 161; 7 CFR, 1947 Supp., § 301.52.)

Done at Washington, D. C., this 18th day of May, 1948

  
Chief, Bureau of Entomology and  
Plant Quarantine
